NeuroTherm Opens New Regional Middle East Office

Wilmington, Massachusetts –September 2010

NeuroTherm opens a dedicated office to support growing business in the Middle East and Africa. Dr. Hassan El Wakil of Al Khalig, who has worked with NeuroTherm since 2002, will be the General Manager of the newly established office. Dr. Wakil is based in Cairo, Egypt. Ahmed Ammar, who has represented NeuroTherm products in the Kingdom of Saudi Arabia (KSA) for seven years, will serve as the Regional Product Manager and will continue to be based in Jeddah, Saudi Arabia. “I am looking forward to working with this dedicated team and to expanding NeuroTherm’s presence in this region”, says Jos Kerstens, NeuroTherm’s V.P. of International Sales. “We are already showing great progress with new accounts in eight countries; this is in addition to our current well established presence in Egypt and KSA,” continues Kerstens.

NeuroTherm is a leading manufacturer of products used in the field of Interventional Pain, including radio frequency generators and related consumables used to treat chronic pain. The company was awarded a US Patent #7,574,257 in recognition of the first multi-lesion radiofrequency generator launch. NeuroTherm markets and sells to Interventional Pain, Interventional Radiology, Orthopedic, Neurosurgeons and Foot & Ankle Specialists.

NeuroTherm is headquartered in Wilmington, Massachusetts with corporate offices in London and Amsterdam. Additional information about NeuroTherm can be found on at www.neurotherm.com
